

# primo-W

Full Wireless Digital Radiography system  
Mobile & Portable

# the lightest cable free DR system available

image & data  
transmitted wireless

images sent to PACS from  
anywhere in the Hospital

automatic image capture over  
the entire useful area

## the most innovative and advanced X-ray system

Ideal for digitalizing existing mobile X-ray analogical unit, for civil emergency applications and for mobile Health Radiology services.

The WiFi detector can also be used in standard bucky unit and remote controlled tables.

Total absence of electro-mechanical interface: 100% wireless connectivity.
